DETAILED ACTION

1. The amendment and Response filed on May 25, 2005 have been considered.

Response to Amendment

Election/Restrictions

2. The amendment filed on May 25, 2005 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the amendment to claim 1 is directed to a final product that was restricted in Group II as a final product made in a process in Group II. The restriction between Group I and Group II was made as an intermediate-final product relationship. By the amendment of May 25, 2005, no one claim left in Group I as an intermediate product as original presentation in the Restriction mailed on 11/17/ 2004. In the Response filed on Dec. 17, 2204 Applicants elected Group I, claims 1-7 and 12-21 with traverse. In the Office action mailed on 01/25/2005 claims 8-11 and 22-33 (Groups II and III) are withdrawn from consideration as non-elected inventions with traverse.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

Art Unit: 1711

3. Newly submitted claim 34 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: new claim 34 drawn to an solid reagent that can lose the reactivity and may recover the reactivity with a regenerant. Inventions of Groups I, II and III (as originally filed) and an invention in claim 34 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions and different effects.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 34 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Applicant did not distinctly and specifically point out the supposed errors in the restriction requirement for the claims claimed in the preliminary amendment of July 11, 2003.
